## ● BASIC INFORMATION ABOUT THE SCHOOL

Yeang-Der Senior High School has always acted as an exemplary school for the vocational system, in order to deal with the environmental impact of the declining birth rate, we hold the concept of educational guidelines based on the philosophy of pragmatism carried out by the school, namely innovative activities, gratitude and attention, whole human education, and adaptive development, constantly making new developments and changes, for the benefit of the majority of students.

In order to actively participate with government policies, in terms of the politics of switching cooperation with Southern Countries, since 2021, we have accepted students "Study / Internship Class Program For Overseas Chinese Students Majoring in Restaurant Management", and starting from 2022 has been added another one "Study/ Internship Class Program for Overseas Chinese Students majoring in E-commerce", and in 2024 in order to meet the increasing need for manpower for the technology industry in Taiwan, the E-commerce program will be expanded into 2 special classes for " Overseas Chinese Student Class Program", in order to support Overseas Chinese students to continue their studies and improve their competitiveness.

Yeang-Der Senior High School has the guidelines of "Based in Taiwan, looking towards the International, cultivating Overseas Chinese students, and continuously cultivating morality" in the distribution of education, we attach importance to the moral education of students, discipline in life, human relations, professional achievement, and other truth values. We believe that excellence can be achieved through education, our goal is to educate every student, to have a healthy personality, to become a moral scholar and capable of continuous learning, to build a comprehensive educational institution.

## ● KEY POINTS IN STUDENT RECRUITMENT

Based on the concept of "a peaceful school environment, always creative, multicultural, business-industry integration, adaptive development" to educate people comprehensively, create quality learning in good schools, so that students can study in a beautiful and peaceful environment. Actively educate students to be able to continue to a higher level, career, skilled, innovative, informative, artistic and other essential skills. Fostering Overseas Chinese Students to become talented people in their professional fields, hoping that they can continue their journey to a wider path, so that it is useful to make every student able to achieve success in "Future development, morality and ability".

## ● PROFESSIONAL MANDARIN TEACHERS AND COMPLETED DORMITORY TEACHER

1. Professional Mandarin Teachers: Placing professional Mandarin teachers as tutors, they can directly help teach Mandarin and daily life counseling, so that Overseas Chinese students can improve their Mandarin skills in a short time, and they will be more fluent in learning other subjects and more adaptable at work.
2. Completed Dormitory with vietnam-speaking and Indonesian-speaking Dormitory Teachers: Hiring professional Dormitory Teachers who are "English-speaking", can help Chinese students in dormitory management and maintenance of their lives, in addition, through good communication and interaction,

can reduce problems in an effort to adapt that Chinese students may experience from living abroad.
